

# AstroX

The First **All-in-One Web3 Launchpad** for Tokens, Creators, Livestream and e-Commerce

**AstroX** is a no-code platform that lets anyone quickly **create and launch tokens** across major blockchains. Users can **host live token launches**, access tools to **grow and manage** their community, and soon sell products through **integrated live shopping**.

## THE PROBLEM

### CURRENT MEME LAUNCHPADS

Platform lacks livestreaming

No creator monetization

No integrated trading

No post-launch retention systems

Single-chain limitations

No AI growth tools

## MARKET OPPORTUNITY

AstroX sits at the intersection of all three, creating a new Web3 entertainment category

- **Meme token trading volumes:** multibillion annually
- **Creator economy:** projected to exceed \$500B globally
- **Livestreaming market:** heading toward \$240B+

## THE ASTROX SOLUTION

INTEGRATED SPOT TRADING & FUTURE PERPS

LIVESTREAM TOKEN LAUNCHES

MULTICHAIN DEPLOYMENT

AI GROWTH TOOLS

CREATOR MONETIZATION ENGINE

RETENTION SYSTEMS

IN-APP COMMERCE ECONOMY

## COMPETITIVE ADVANTAGE

AstroX is a first-mover in livestream token deployment, supported by strong retention loops, creator incentives, an AI-enhanced success stack, and day-one multichain infrastructure. Its viral, social-native mechanics and tightly integrated design make it extremely difficult for competitors to replicate.

## ROADMAP QUARTER MILESTONE

From inception and early planning to development kickoff and culminating in a public beta release.

Multichain no-code launchpad with beta livestreams, creator profile & analytics, & mobile streaming tools.

Spot trading, creator monetization, global ambassador program, and AI tools.

ASX Token Launch (TBD), Perpetual trading, in-app live commerce, AI creator tools, & full mobile app (beta).

Live commerce (beta), full mobile app launch, and enterprise & agency integrations.
