

AstroX

The First Livestream-Powered
Multichain Meme & Creator Platform

Breaking barriers. Binding chains.

The Creator Economy Super-app for web3

Powered by

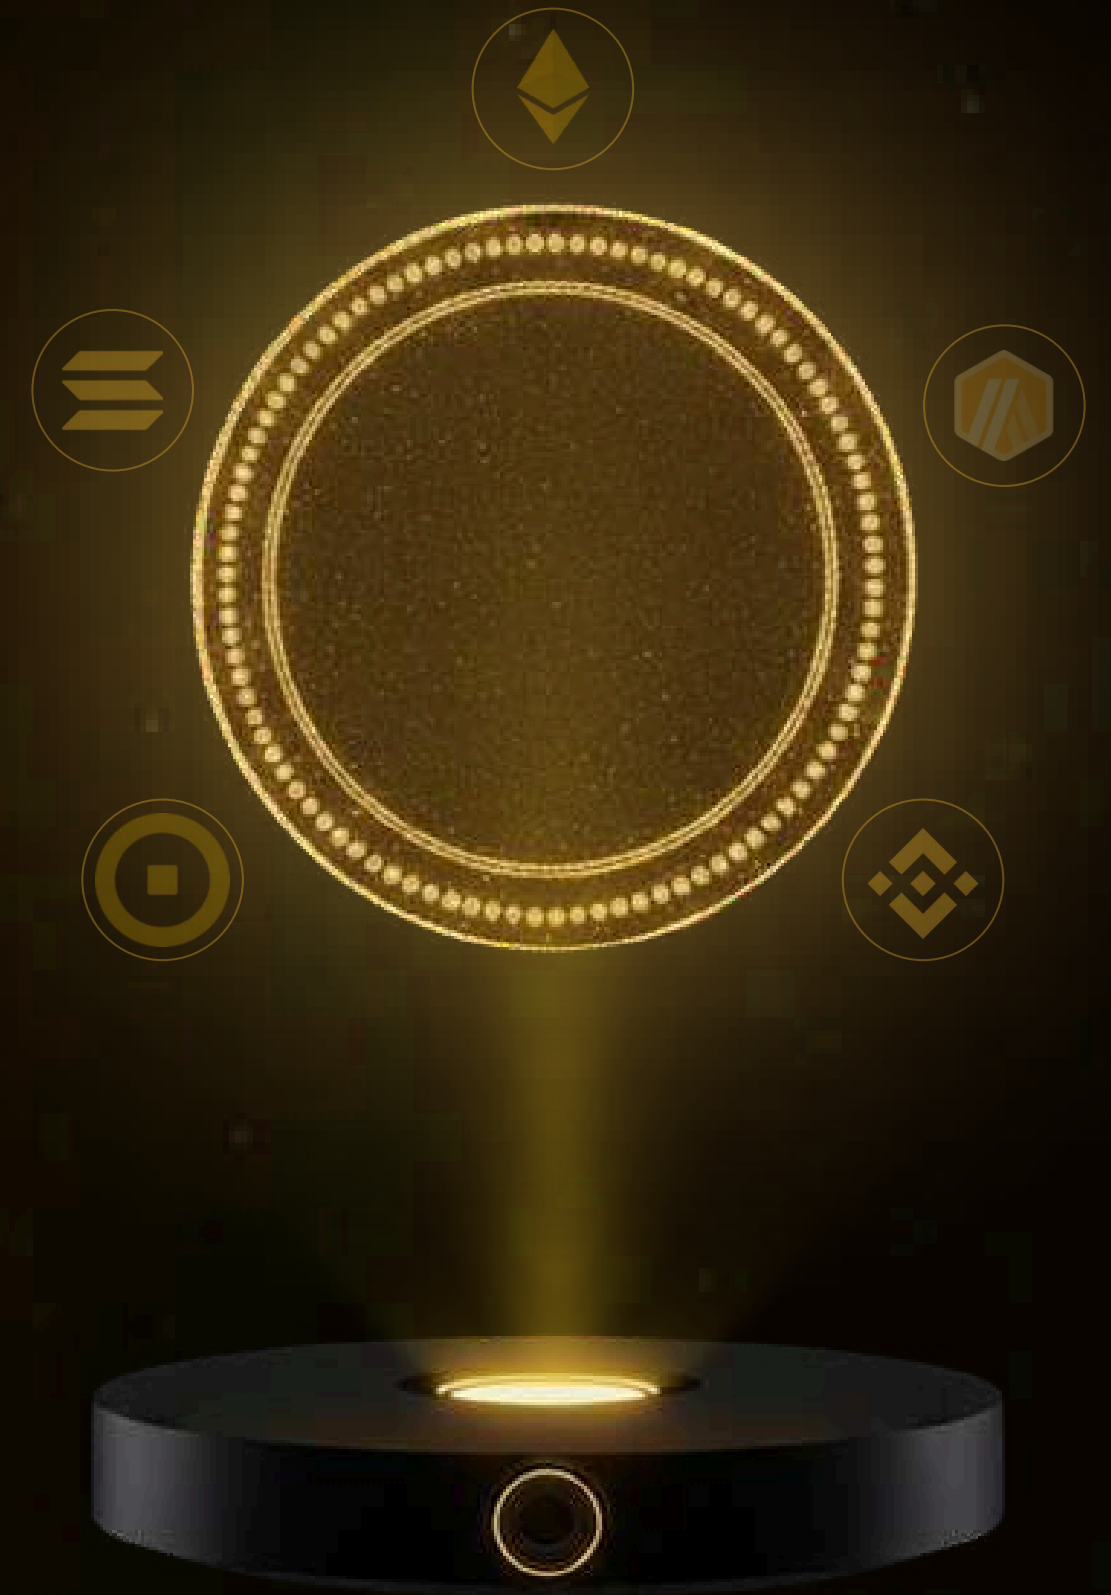

BSC • Solana • BASE • Ethereum • Arbitrum

INTRODUCTION

AstroX revolutionizes Web3 by merging DeFi, token creation, livestreaming, and commerce into one seamless ecosystem. Create, Launch, and grow your own meme token live, across BSC, Base, Solana — with zero coding required

No coding. No complexity. Just creativity.

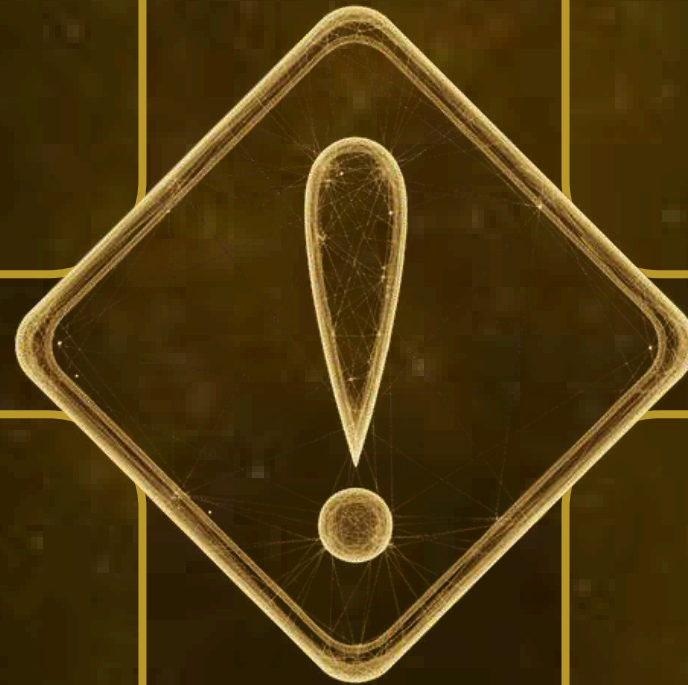

THE PROBLEM

Meme token creation is limited to single-chain platforms.

Complex and tech-heavy token creation process.

Lack of real-time community engagement tools.

Minimal connection between DeFi, entertainment, and commerce.

The AstroX Solution

AstroX unites **creation, trading, and community** into one powerful Web3 ecosystem.

Multichain Launchpad

Create tokens across multiple networks.

No-Code Interface

Easy and fast deployment.

Livestream Integration

Build communities in real time.

In-App Commerce (Coming Soon)

Promote and sell products during live sessions.

SUPPORTED NETWORKS

AstroX empowers users with the flexibility to choose their blockchain of choice or go cross-chain with ease.

HOW IT WORKS

1

Create Your Token

Choose your preferred blockchain — BSC, BASE, SOL, ARB, or ETH — and customize your token's name, symbol, and supply.

2

Deploy Instantly

Launch your token on-chain within seconds using AstroX's no-code, gas-optimized deployment tool.

3

Go Live

Start a livestream to announce your launch, promote your token, and connect with your audience in real time.

4

Engage & Expand

Continue streaming post-launch to engage your community, promote updates, or even showcase products with our upcoming in-app shopping feature.

AstroX makes launching, promoting, and growing a token as seamless as creating content.

LIVESTREAM INTEGRATION

AstroX introduces a real-time livestreaming feature that transforms token creation into a social, interactive, and community-driven experience. But it doesn't stop at launch — creators can continue going live to:

Promote their tokens post-launch

Engage directly with their communities.

Increase visibility and market reach through interactive livestream events

Promote real-world products via our upcoming in-app shopping feature
